

InfoSec Nears 100 Users Licensed for TSSadmin Express

[InfoSec, Inc.](#) announced today that it is nearing the century mark for concurrent users licensed for **TSSadmin Express™**. **TSSadmin Express™** is a technology designed to drastically improve the efficiency, accuracy and security of CA-Top Secret mainframe security environments. **TSSadmin Express™** allows customers to leverage their mainframe investment by employing technology proven to dramatically reduce work effort with unparalleled accuracy.

Robert Fake, President of InfoSec, stated, "We are quickly approaching a milestone goal with 100 concurrent users licensed. Once our customers see **TSSadmin Express™** in action at their site, they can begin to visualize the dramatic productivity improvements that can be gained with this technology. They see how they can identify groups of users and create hundreds or even thousands of commands for those specific users in a matter of seconds. Then to top it off, they can run all of those commands online, foregoing the standard interface or having to run a batch job. On top of that, add the reporting, auditing and knowledge base aspects of **TSSadmin Express™** and you get tremendous productivity improvements."

[Client comments](#) from major insurance companies, large federal agencies, major healthcare providers, state government and more include:

- "I'm using (TSSadmin Express™) as the cornerstone of my role-based work."

- "I think some of Express's tools are superior to Excel's, especially when my file has 450K rows." (Excel limitation of 64K rows)

- "w/o TSSAdmin Express, my interest in CA-Top Secret would have died a long time ago!!!"

- "TSS Role Based Project w/o [TSSAdmin Express](#) would take 5X longer, and mental breakdowns. Basically, there are some tools at your workbench or in your garage that you like to exercise, because you feel very productive. The feeling is like that. It's the FEELING"

- "With TSSAdmin Express behind your back, you sleep better. Insurance policy, for not IF, but when! Minutes of down time cost more than hours of Is insurance worth it? How many companies have suffered tremendous financial losses, because their security admins were too slow?? Honestly, I dunno, but...."

- "Your (AC Power Button™) to replace multi line INSTDATA is cool! appreciate the function"

- "It's a godsend!... the product has great capabilities to enhance Top Secret administration."

- "I helped (my co-worker) create access rules for a new xxxx function. The function was to be given to about 2000 users. I showed her how to do it with TSS Admin Express. She then went back to her desk repeated on her own and within 5 minutes, the task was done and the job was running. I would estimate that using a 30-hour job for this administrator was reduced to 5 minutes."

- "There are a lot of time-saving features. It provides functionality that does not exist using native TSS commands."

- "I have grown quite dependent on TSSadmin Express whenever I use Top Secret."

- "Our team would greatly benefit from this tool. It has many features that would be used for completing routine tasks as well as save tremendous amounts of time on large volume tasks and tasks that require analysis."

- "TEX (TSSadmin Express) would be helpful with ad-hoc analysis and handling of the eTrust Cleanup data."

-"The ability to quickly identify any changes to a user ID or the profiles attached to that user - Such a manual analysis of the history file would take the analyst a large amount of time (If an ID has 40 profiles, this would require 40 searches). TEX (TSSadmin Express) does the analysis instantly."
