

INFOSEC ANNOUNCES AGREEMENT WITH CA AS MAINFRAME SOFTWARE RESELLER

Centreville, VA, November 21, 2006 – InfoSec, Inc. today announced that they have been approved by CA, Inc. (formerly Computer Associates International, Inc.) as a channel partner to re-sell CA's mainframe computer technology, supporting CA's focus on the mainframe market and use of channel partners.

InfoSec has been a premier service partner of CA since 1998, focusing primarily on CA mainframe security services and reselling CA mainframe software since December, 2005. "Reselling CA mainframe technology is the next logical step in our partnership with CA", said Robert Fake, President of InfoSec. "InfoSec's expertise in mainframe technology, especially CA's mainframe technology, creates a win-win-win scenario for InfoSec, CA and our mutual customers."

Gary Weiss, Sr. Vice President of sales for the eTrust brand at CA stated "Partners are a focus area for Computer Associates and we are excited to have InfoSec join our Reseller Program. InfoSec has been a long standing Mainframe Security partner for CA who has built credibility and trust within the Mainframe community."

InfoSec resells CA's entire mainframe software portfolio, specializing in CA's eTrust mainframe product line, including:

eTrust CA-Top Secret Security
eTrust Cleanup for CA-ACF2 Security
eTrust Cleanup for IBM RACF
eTrust CA-ACF2 Security for DB2
BrightStor Tape Encryption

eTrust CA-ACF2 Security
eTrust Cleanup for CA-Top Secret Security
eTrust CA-Top Secret Security for DB2
eTrust CA-Examine Auditing
BrightStor CA-VTAPE

InfoSec also provides professional services around the above technologies, as well as other CA mainframe software products and IBM operating system software. These include installation, implementation, upgrades, performance and tuning and assessment of mainframe technology.
